

Sinclair Broadcasting's decision to air Stolen Honor Is unfair and biased. This is a view point not news! They should at least air a film showing the other view point right after if they are allowed to do this! Many people have offered their films like "Going Upriver". They cannot have free advertising for Bush like this it is just simply unfair and inaccurate! I am so sick of these people who lie just to get there man in office, it is very disturbing. I mean think about it Do you really think John Kerry has done wrong for the country because he came back from a brutal war against it! Who is for war for gods sake, it is a twisted and brutal reality and George Bush will never know cause he did not have to go. Kerry came back with a view point- to stop the war-to stop the crazy stuff that what happening, to save us face for petes sake! what is wrong with that. they say he lied to get his medals well look at Bush he lied to stay out! why would they show a film like this- a view point -not news - no proof - just a bunch of liars who want george bush for president again. I am so sickened and saddened by the state of the media- promoting these right wing agendas-it feels like we truly don't live in a democracy. thank you
